Challenging HIV and
AIDS discrimination

www.ghn.ie

Action Plan Update 2009

In many parts of the world Lesbian, Gay, Bisexual & Transgender (LGBT) People are imprisoned or murdered for who they are.

In Ireland LGBT people of all races experience many forms of discrimination, some experience hate related attacks.

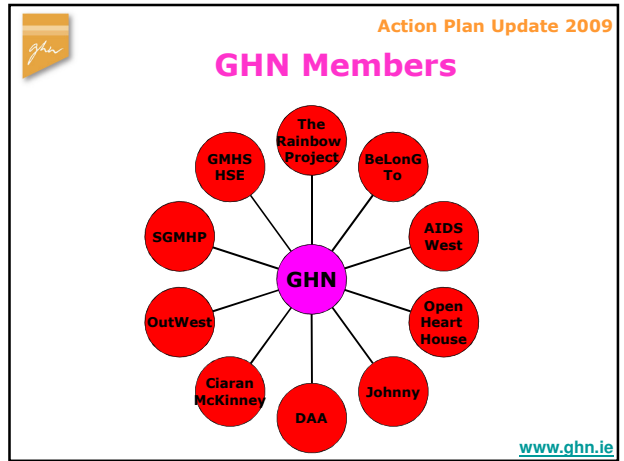

Our young people continue to be bullied and harassed in their schools and communities.

Let's work together to challenge and stop Homophobia & Transphobia.

If you want to know more about SOAHO or want support around your sexual orientation or identity go to:
